

INSPIRATION 11m CATAMARAN

DECK EQUIPMENT

The vessel 'Feeling' is fitted with the best equipment for safe and reliable chartering and cruising. The pulpits and pushpit are made from 1 1/4" 316 high polish stainless steel tube and are more than 75 cm high (min survey requirement) with two centre rails and white PVC coated s.s wires. The pulpits are fitted with GRP seats. The navigation lights are fitted to the pulpits and pushpit.

ANCHOR WINCH

A 12V DC Muir Cougar horizontal anchor winch is fitted with a 60lb CQR anchor and 60 metres of 10mm gal chain. The winch is fitted with a reversing switch for up and down operation located in the cockpit, this has been disconnected for charter use and can only be operated by the charterer on the foredeck. A spare 40 lb Danforth anchor is located in the portside sail locker with 55 metres of rope and 6 metres of 10mm gal chain. The anchor winch has it's own battery (deep cycle 100 AH)positioned closely in the forward locker to alleviate power loss from long cable runs.

HATCHES

Deck hatches are either molded GRP or Moonlight hatches.

CABIN WINDOWS

All cabin windows are anodized black powder coated aluminum with grey tinted toughened glass. Each cabin has a sliding window for good ventilation.

SOLAR PANELS

4 x 80 watt solar panels are located on the GRP cabin top extension.

BBQ

A large 'Cookout' BBQ is fitted to the pushpit. Gas is supplied to the BBQ from the gas locker below.

DAVITS

GRP molded davits hold the 3.1 metre inflatable boat with 6 hp Yamaha outboard. [Photo of inflatable boat here.](#) The inflatable boat is surveyed to carry max 8 persons.
